USE OF THIS DIRECTORY FOR SOLICITATION IS PROHIBITED

Memphis State University is an Equal Opportunity/Affirmative Action University. It is committed to education of a non-racially identifiable student body.

On the cover: The lobby of Old Brister Library, which features classically derived details from ancient Greek and Roman motifs, is one of the most architecturally beautiful locations on the Memphis State University campus. The building was completed in 1927. This photo was taken by Gil Michael, MSU Photo Services Director. The directory cover was designed by Jim Cloud, Art Services Director.

GENERAL INFORMATION

NOTE: When an emergency arises, **don't dial 911!** The display at the city's 911 center reads "Memphis State University - Security" with no specific reference to the user or telephone set location.

State Fire Department regulations require you to call them first at 458-3311 for fire and ambulance emergencies. Then dial **HELP** (4357). For all other emergencies, dial **HELP** (4357) and a University security staff member will dispatch appropriate emergency services.

IMPORTANT NOTICE REGARDING DIRECTORY INFORMATION

The following information has been designated "Directory Information" by University officials: name of student, address, telephone number, date and place of birth, academic major, dates of attendance, degree(s) awarded and the most recent previous educational institution attended by the student. This information will be released upon request to interested parties unless the student has provided a signed statement to the Records Counselor and Coordinator (AD 115) within 14 days of the beginning of classes each semester requesting that such information not be released.

CLASS CANCELLATION & INCLEMENT WEATHER POLICY

In the event that inclement weather requires the cancellation of Memphis State University classes and/or campus activities, local radio and television news media will be immediately notified for dissemination as they deem appropriate. Such closing decisions will also be given to University vice presidents for dissemination through the notification system in place for each MSU division. Cancellations will not apply to administrative offices. Each faculty and staff member and each student is expected to recognize that inclement weather creates conditions more dangerous than normal. Therefore, each person is expected to exercise a high degree of care to avoid accidents. All non-teaching employees who do not report to work during inclement weather will be considered in an annual leave or leave without pay status for the period of their absence. (MSU Operating Procedure 2A:16:01A)

TOLL-FREE TRAVEL NUMBERS

The following list of toll-free telephone numbers for national hotel/motel chains and automobile rental agencies is provided for your convenience in planning trips for business or pleasure. We hope it will be helpful.

TIGERLINE LONG DISTANCE SERVICE

Long distance service is offered by the MSU Telecommunications Department. Called "Tigerline", this service is available to any administrative/faculty person for official University business, for residence students and for administrative/faculty persons for home or personal use during business hours.

Application should be made to the Telecommunications Office located in Jones Hall, Room 101. **Application**

| | • • |
|------------------------------|--|
| Administrative (MSU Account) | Communications Work Request |
| Faculty/Staff (Personal) | Application for Tigerline Long Distance Service - Faculty/Staff Account |
| Residence Student | Application for Tigerline Long Distance Service - Residence Student Account |

PLEASE NOTE: The cardholder is responsible for all calls charged to his code number. Notify the Telecommunications Office immediately if your card is lost or stolen. Any billing discrepancies should be reported to the Telecommunications Office within 10 days of invoice date.

RATES

User Class

The Tigerline rate structure is based on the cost of service and is considerably below the cost of alternative long distance services from the campus. A \$50.00 deposit may be required for student accounts. There is no minimum usage charge and no financial limitation on calling ability. In case of excessive call use, the user will be notified and asked to make a payment.

CALL BILLING

After completion of dialing a long distance number, the system automatically begins timing the call. A 30-second grace period is given for domestic calls and a 72-second period for international calls. Users will be billed for any connection greater than stated including unanswered ringing and busy signals. If a wrong number is dialed or a bad connection is received, hang up immediately to avoid a charge.

The telephone system must receive a positive release signal to terminate billing of each call. When consecutive calls are made, take appropriate action to insure that the first call is properly terminated for billing purposes. To terminate calls for standard desk sets or residence lines, hang up for at least 5 seconds. Billing adjustments will not be made for improperly terminated calls.

ACCOUNT BILLING, PAYMENTS AND ADJUSTMENTS

Administrative Accounts - Departments/Agencies are provided a detailed report of all local, long distance and communications work requests, usage and associated costs monthly. Billing adjustments to administrative accounts will not be made after the date indicated on the invoice. Any discrepancies must be reported to the Telecommunications Office in writing.

All other accounts - A monthly invoice will be rendered each user with an itemization of all long distance charges. These invoices are due upon receipt and are considered delinquent after 20 days of invoice date. Checks should be made payable to Memphis State University. Payments are to be made at the Bursar's Office before the delinquent date. If payments are not shown posted by the delinquent date, the authorization code will be deactivated until payment is received. A \$15.00 reactivation fee will be charged to restore long

Any discrepancies or concerns need to be discussed with Telecommunications Office personnel in Jones Hall, Room 101. No discussion of accounts will be handled over the telephone.

TERMINATING SERVICE

Administrative Accounts - To deactivate an authorization code, submit a Work Order Request form to the Telecommunications Office and attach the user's Tigerline Card.

Faculty/Staff Accounts - Provide written notice to the Telecommunications Office advising the effective date of termination of service.

Complete final paperwork in person at the Telecommunications Office. ALL CHARGES MUST BE PAID PRIOR TO DEPARTING THE UNIVERSITY.

Student Accounts - Students must go to the Telecommunications Office in person to terminate service. Applicable deposits will be refunded by the Bursar's Office upon termination of service providing there is no outstanding balance. If there is a balance due, the deposit will be used to pay the bill. Any remaining deposit will then be refunded. An additional payment may be required if the deposit does not cover the balance due.

Failure to pay will result in any credit(s) which the student has on deposit with the University (i.e., dormitory reservation, breakage fees, etc.) will be applied to the outstanding bill and the student will be required to re-establish the forfeited deposit. As in the case of all other financial obligations to the University, non-payment will result in withholding of registration materials, diploma and/or transcripts.

TELECOMMUNICATIONS SERVICES

FacsImile

The Telecommunications Office is equipped to transmit and receive facsimile documents to any point with facsimile capabilities. This service is available to any student, faculty/staff member, department, organization or agency with a University Account number. Rates for sending facsimiles can be obtained from the Telecommunications Office. There is no charge for incoming messages. Incoming facsimile documents can be received 24 hours a day. The telephone number for receiving facsimiles is MSU-FAXX (678-3299).

The PC Connection

Residence students may subscribe to this service which will allow their personal computers to communicate with other devices that can be reached by dial access. The telephone system will provide the proper modem speed interface for all data calls. Students will need to purchase from Telecommunications a hardware adapter for the communications port of their personal computers. There is a monthly charge for this service. During data calls, the phone line is still available for placing and receiving voice calls. Service may not be available in all residence halls.

Special Features

Basic and Deluxe feature packages consisting of Automatic Callback, Call Hold, Call Waiting, Call Transfer, Call Conference (3-party only) and Speed Dialing are offered to residence students for added convenience and flexibility to meet their communications needs. Students must make application for service at the Telecommunications Office.

Teleconference or Conference Calling

Any person, group or department may hold a telephone conference call for up to six (6) parties. Only one of these parties needs to be a campus station. To establish a conference call for more than three (3) parties, call the campus operator for assistance.

A portable teleconference telephone is available for persons, groups or departments that would like to take part in a teleconference. This telephone is designed to allow large groups to participate in discussions with remote locations. Typically this involves only one MSU station for the group. Groups do not have to be part of the main campus to take advantage of this service.

User's Guides

Telecommunications has developed user's guides for equipment and services offered by the department. Each station user should have a copy of the guide that is appropriate for their telephone. Each Communications Counselor has copies of all user guides and can answer most routine questions. Check with your department for the name of your Communications Counselor. This person serves as an extension of the Telecommunications Office in meeting the needs of the user community.

Assistance

The Telecommunications Office staff is available to assist any person, group or department with any telecommunications needs or services. End user or departmental training, departmental analysis and design, and special services can be arranged by calling 678-2999. Please call us with any questions, concerns, problems, or for information.
